Release information

The following changes have been make to this document.

Change History

Date	Change
07 Dec 2017	First release for v1.0.0
18 Feb 2019	Second release for v1.0.1

Proprietary Notice

Information in this document is provided solely to enable system and software implementers to use Nexell products. There are no express or implied copyright licenses granted hereunder to design or fabricate any integrated circuits or integrated circuits based on the information in this document.

Nexell reserves the right to make changes without further notice to any products herein.

Nexell makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does Nexell assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation consequential or incidental damages. “Typical” parameters which may be provided in Nexell data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including “Typicals” must be validated for each customer application by customer’s technical experts. Nexell does not convey any license under its patent rights nor the rights of others. Nexell products are not designed, intended, or authorized for use as components in systems intended for surgical implant into the body, or other applications intended to support or sustain life, or for any other application in which the failure of the Nexell product could create a situation where personal injury or death may occur. Should Buyer purchase or use Nexell products for any such unintended or unauthorized application, Buyer shall indemnify and hold Nexell and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that Nexell was negligent regarding the design or manufacture of the part.

Table of contents

Chap 1. Configuration

1.1 Supported Bluetooth module

NXBT100, Azurewave

서식 있음: 표준

서식 있음: (없음)

~~1.1~~1.2 Path

kernel/kernel-4.4.x/arch/arm/configs/s5p4418_daudio_ref_defconfig

~~1.2~~1.3 Kernel configuration

Enter configuration mode as follows.

```
$ cd kernel/kernel-4.4.x
$ make ARCH=arm s5p4418_daudio_ref_defconfig
$ make ARCH=arm menuconfig
```

Check the required items as follows.

```
[*] Networking support —>
    <*> Bluetooth subsystem support —>
        [*] Bluetooth Classic (BR/EDR) features
    <*> RFCOMM protocol support
        [*] RFCOMM TTY support
    <*> BNEP protocol support
        [*] Multicast filter support
        [*] Protocol filter support
    <*> HIDP protocol support
        [*] Bluetooth High Speed (HS) features
        [*] Bluetooth Low Energy (LE) features
        [*] Export Bluetooth internals in debugfs
                Bluetooth device drivers —>
                    <*> HCI UART driver
                     -*- UART (H4) protocol support
                     [*] Broadcom protocol support
                    <*> Enable BCM434545 driver
```

```
<*> RF switch subsystem support —>
    [*] RF switch input support
<*> Generic rfkill regulator driver
<*> GPIO RFKILL driver
```

Apply config file as follows.

```
$ make ARCH=arm savedefconfig
$ cp defconfig arch/arm/configs/s5p4418_daudio_ref_defconfig
```

Chap 2. Porting

2.1 DTSI setting

2.1.1 Path

kernel/kernel-4.4.x/arch/arm/boot/dts/s5p4418-daudio_ref-common.dtsi

2.1.2 Bluetooth control

```
bt_control {
        compatible = “broadcom,bcm434545bt”;
        gpios = <&gpio_c 7 0>;                  /* GPIOC7 = BT_EN, output */
        pinctrl-names = “default”;
        pinctrl-0 = <&bt_cfg_en>;
        status = “okay”;
};
```

2.1.3 Pin configuration

```
bt_cfg_en:bt_cfg_en {
        nexell,pins = “gpioc-7”;
        nexell,pin-function = <1>;
        nexell,pin-pull = <2>;
        nexell,pin-strength = <0>;
};
```
